*When you learn a foreign language, you study its grammar. Grammar is also important when you speak your native language. Grammar is very important because it is a set of rules which tell us how a language works. Every language has its own set of rules. These rules explain what different kinds of words do and how they work together. For example, you can take basic types of words. They are parts of speech. We need to know grammar to put this or that word into the correct part of a sentence. So, everybody needs grammar.*
